VI. Officer's Reports:

a. Chair - John Schoonvel:

i. Theme of potential speaker: The theme decided on was a motivational theme. Comedy was mentioned as a possible theme, however motivational was more popular. A possible speaker for this event is Eric Thomas. He costs $10,000.00

(so he is within our budget), was homeless, and overall seems like a good speaker for us to have. SSDP mentions that this man sounds just as good as the other, more expensive speakers. ASSA asks whether or not this will come out of our budget, and it will not.

b. Vice Chair - Natasha Bonner:

i. Budget report: September - October, 2014. Natasha sends the Executive Senate budget report to the ASI, Vice President of finance once a month. She will present and provide an updated budget report at the beginning of each month. From line item 8074, we have used about 8% of our funding so far. From line item 8077, we have used about 8% of our funding. Natasha showed the amount of money allocated and to which clubs it had been allocated to. This will help us avoid a mid-year budget crisis, like the one from last year.

ii. Recognition Letters: The deadline to turn recognition letters into Natasha is the 31st of October at 1:00 P.M. Please turn the recognition letters into the H&SS ICC mailbox and send Natasha an e-mail mentioning that you have done so. You can also e-mail your letter, or you can give it to Natasha directly.

iii. Paperwork: Many clubs wanting to present have missing paperwork. Without everything turned in, you can't get checks or process check requests. The 8077 paperwork process is longer than 8074. SSDP asks how students can get their checks. Natasha replies that she will contact the ICC representative and ask how they want their check. The representative will then ask their club and figure out the best way to get money to the student.

iv. H&SS Week: The H&SS week schedule will be e-mailed to all of the ICC representatives. Acacia asks if there is a deadline for reserving a room. David replies that the rooms are on a 'first come, first serve' basis. SSDP asks about the theme for H&SS week. David mentions that the dean would like us to use the theme they decided on. David will send out the H&SS week theme.

v. Other: Natasha says thank you to both of her alternates and John for attending the meeting in her stead. SSDP, Geography Club, and ASSA all need travel packets. They need to see Natasha after the meeting.

c. Director of Administration - Colleen Curtis:

i. Nothing to report.

d. Advisor - David McKenzie:

i. H&SS Week: No one has come forward for the ad hoc committee. David also shows programs from previous year. If you would like more information about H&SS week, please stay after the meeting.

e. A.S.I. Liaisons - Michelle Viorato & Amanda Martinez

i. Board Presentation: Next week ASI is going to present to the board. ASI will be presenting to the university and will be giving information and statistics about the College of Humanities and Social Sciences. ASI will also be mentioning problems or concerns that students have about this college. Any problems? SSDP mentions that the statistics classes are held during the day and that there aren't many options to choose from. SSDP also mentions that public administration classes are at night, so it makes it difficult for people who work to take a lot of classes. David mentions the $500.00 cap per student. This really causes a problem for H&SS students. If something is bothering you, please reach out to ASI. They will be presenting on Tuesday, so try to have your concerns into them by then.

VII. Public Speakers:

VIII. Old Business.

IX. New Business.

a. Order of those speaking: LSSA, CRU, ESS, Philosophy, TESOL.

b. We, the **Liberal Studies department**, both students and faculty alike, would like to submit our endorsement to have Dr. Robert Westman as a speaker to our student body on the topic of “Copernicus and the Astrologers”. Dr. Westman is a professor at UC San

Diego where he teaches in the History Department. At his talk, which is to take place on December 1st at 4:00 pm, he will talk about Copernicus and his heliocentric theory which rocked the 16th century world, in more ways than one. The LSSA has teamed up with the History Department to bring Dr. Westman to this campus and deliver this highly interesting speech regarding what could be considered to be "the beginning of the Scientific Revolution" in 16th century Europe. We are asking the College of Humanities and Social Sciences Inter-Club Council to help support this endeavor by funding $1,000 toward this endeavor, solely for his honorarium, from article 8074. This funding would allow our students to have the opportunity to hear this amazing professor and his evidence for why Copernicus' heliocentric solar model was considered to be heretical in the eyes of the church, as well as those who used the stars as a model for their daily lives.
