This event will host two guest speakers, covering a wide range of topics from police interrogations and false confessions to the various new technologies used in exploring the field of cognitive neuroscience. This event will also allow both undergraduate and graduate CSUF students to display and present their research to all who attend and will have the opportunity to receive a student research award given to the first and second place winners for best poster. Psychology Day brings the key aspects of professional conferences to CSUF in one day. The goal of the program's organizers is to add to student learning and enhance students' overall educational experience. Psychology students will get a chance to have lunch and talk with professors from the department and meet other students with similar interests. PDSA representatives have the chance to spend quality time with the speakers and learn about new opportunities. These experiences are key aspects of professional development for our students.
